CENTRALIA, III., May 25.-Despite their defeat and the capture of a quarter of their number yesterday, in Odin, the Duquoin miners made another attack on the Centralia miners before dawn to-day. Just about 3 o'clock about fifty His Fiancee's Brother Will Deof the strikers crept stealthily to the mines, which had been left lightly guarded in the belief that any attack, if made, would be on the armory, where the arrested men were confined under heavy guard.

for the Victor mines, ostensibly to protect railroad property, but undoubtedly to participate in the fight. The strikers will be confronted by about 890 deputy sheriffs, all well armed.

SPRING VALLEY, Ill., May 25.—A Polish striker was arrested and locked up yesterday for rioting. Last evening a mob of infuriated Poles and Lithuanians marched to the jail and liberated the prisoners. Later the police force attempted to arrest the ringleaders of the mob in the Polish district, but they were set upon by another gang armed with knives and missiles. Two officers were wounded.

LA SALLE, Ill., May 25.—Word has just been received that Spring Valley has organized, armed and sent to La Salle, in exponse to a call of the strikers here, 500 men. They are now on the march, and are expected in the morning. They come to to liberate the prisoners taken in the riot. It was said that the Sheriff's life would be taken, and he was removed to Ottawa in a closed carriage late last night.

POMEROY, O. May 25.—Four hundred miners yesterday visited the miners which supplied the salt furnaces and other local industries with fuel and induced all the men to join the river strikers. This will close down all furnaces and iron mills. The strikers will cross the river, to-day and move on Senator Camden's mine, to shut off the supply of coal being shipped to Fenn-

sylvania over the Ohio River road. The operators of this district are ready to pay the price demanded, but miners refuse to accept until a general settlement is effected.

LEAVENWORTH, Kan., May 25—Among laboring classes there is now a decided reaction in the treatment of the visiting miners and strikers. The Trades and Labor Assembly held a conference with the men in camp and promised them protection and aid in case they desired to resume their peaceful mission. The miners of the Home and Kansas and Texas shafts have caught the spirit and there is every reason to believe they will go out in spite of the action of citizens to protect and support them.
